

Using Assisted Listening Equipment available in Room 25

Students, staff, and faculty should call 1-help or email [help@umn](mailto:help@umn.edu) to request the hearing assist devices in room 25. There are 4 headsets available.

1. Request access to the headset by contacting 1-help (612-301-4357 or help@umn.edu).
2. Switch the unit on using the volume/power knob located on the top of the headset.
3. Put on the earpiece; it fits over your ear.
4. Adjust the volume to the desired level.

Tips

- Any sound that is coming through the room's system should be audible on the headsets.
- If you experience interference or static, try moving to a different location and be sure that you are facing the front of the room.
