In honor of the past 100 volumes of the Minnesota Law Review, the journal will be highlighting four of the most influential articles it has contributed to the legal community for its 100th Volume symposium. Each panel will consider the broader impact of each particular article, both at the time of its publishing and today. Through our 2015 Symposium and corresponding articles to be published in Volume 100 of the Minnesota Law Review, we aspire to evaluate each of the selected articles, analyze resulting developments in the corresponding area of law, and predict future changes.
